Run the update patch - cm3_official_v304e exe, (if you don't have the patch, it is available at Patches-scrolls.. I found this and I thought would help someone who want play on their today pc I managed to get CM3 to run with the original database on windows 7 by doing the following 1.. DAT file to the game directory Extract the CM303F_C EXE Patch from the File Archive to the game directory.. 3MB 6 Put your CD ROM back in the computer and start the game Hopefully this will work for anyone wishing to play CM3 with the original data, still my favourite as this is what started it all for me Enjoy it P.. Install Championship Manager 3 from the CD ROM but do not start the game 3 Go to your C drive and click Program Files (x86) - click Championship Manager 3 and copy the Data folder, save this somewhere easy to find on your computer 4.
