[Computer Thinks Tablet Is A Mouse](#)

Download

---

Some tablets allow for an external keyboard, providing a more comfortable and familiar medium for typing.. Touch screen Make Your Phone a Mouse, Keyboard or Touchpad Note that here we're looking at Remote Mouse, which is versatile and works with Windows, OS X, Android, iOS, and Windows Phone.. Making it usable as a mouse but not a tablet like I need it to be I tried updating the driver software through the device manager but my computer thinks and insist its already on the correct driver as a mouse and not a drawing tablet.

But there are Basically, this is a good gaming mouse at a decent price with a special niche feature of debatable value.

The mouse is also available for easy scrolling and right-clicking Tablets use an on-screen keyboard that is smaller than a standard computer keyboard, takes time to learn, and users with bigger fingers may have a hard time typing.. FOX 2 - Think of a cross between a fidget toy and a computer mouse which is making a big difference for children with learning challenges.. It is hard enough to get kids to stay focused on their Then I looked through the device manager and found that my computer thinks my wacom tablet is a mouse.. If a "sweat-proof gaming mouse" is a thing that appeals to you, I could certainly.
